

My name is Richard Urano, I am the owner of a small plumbing company in Shell Lake. My wife Sarah and our three children, Sam, Isaac, and Toby moved to Shell Lake 6 years ago from Swift Current, SK, to raise our family in a welcoming community and to pursue careers that contribute to the well-being of this village.

It is my passion to ensure that policy and resource management is equitable and enhances the vibrancy of our village. I look forward to continuing our communal effort in ensuring the needs of our community are met and that our collective efforts as councillors and village members are helping shape a bright future for generations to come.
